Current product: **private supplement**

Comparable product: **premium**

Monthly premium for men and women

CHF

This tariff comparison should give you an easy way of comparing premiums based on the 2024 gross premiums. Any discounts are not taken into account. The premiums of both insurance policies for 2025 will be available from mid-October. As there may be differences, only the premium information in a personal quotation is decisive for the conclusion of the contract.
