

# Development of premiums

## As at 2024

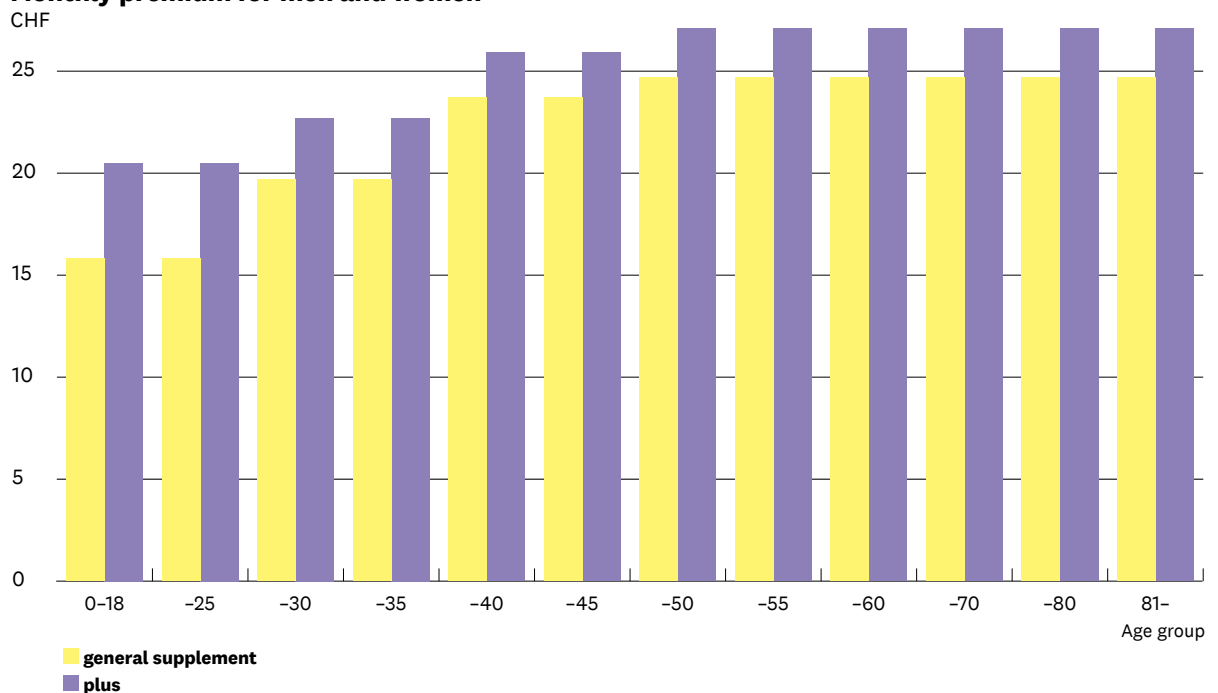

---

**Premium region: EU (excluding Germany and France)**

Current product: **general supplement**

Comparable product: **plus**

### Monthly premium for men and women

This tariff comparison should give you an easy way of comparing premiums based on the 2024 gross premiums. Any discounts are not taken into account. The premiums of both insurance policies for 2025 will be available from mid-October. As there may be differences, only the premium information in a personal quotation is decisive for the conclusion of the contract.
